

Latest Government Guidance for full opening of schools in September 20 – Updated November 2020

The Government has stated that they expect all pupils in all year groups to return to school full-time from the beginning of the autumn term.

The risk to children themselves of becoming severely ill from COVID-19 is very low.

However schools are required to implement a system of controls to ensure they minimise the number of contacts that pupils have during the school day. They must also take account of transport to and from school.

The guidance recognises that there cannot be a ‘one size fits all’ approach and that school leaders are best placed to understand the needs of their schools and their communities, and to make informed judgements about how to deliver the curriculum with the measures needed to manage risk.

Your health and safety and that of your students, staff and community are the most important factor in this process

Revising your COVID-19 Risk Assessment

Schools are required to revise their risk assessments to ensure that the additional control measures that are required are included and implemented in line with the latest guidance.

This is a legal requirement under health and safety law.

There is no need to produce a new risk assessment for managing the return to school as many of the existing control measures you already have in place will still apply.

Review process – Covid 19 September Openings

We have produced a list of additional control measures (see page 2) that you need to consider for your setting. These control measures have been listed in the order they appeared on our model CV19 risk assessments so that these items can be copied in to your current risk assessment.

The tables below summarise reviewed control measures in line with the updated [DfE Guidance for full opening of schools](#)

<http://www.cleapss.org.uk/> gives specific guidance for practical teaching in Science, Design Technology and Art. See [GL343 Guide to doing practical work during the COVID-19 Pandemic](#)

On the Operations risk assessment the row highlighted in red is a new section for you to consider the potential issues around implementing and maintaining social distancing measures.

Groups

Educational settings must do everything possible to minimise contact and mixing whilst delivering a broad and balanced curriculum. It is recommended that you avoid contact between individual groups/bubbles; staff must maintain distance from pupils and other staff as much as possible and arrange the classrooms with forward facing desks. Smaller groups are recommended but if class-sized groups are not compatible with offering a full

range of subjects you can look to implement year group size groups/bubbles for further details see [DfE Guidance for full opening of schools](#).

Vulnerable pupils and staff

Schools must complete individual risk assessments with additional support measures for each pupil or staff member that believes or is thought to be vulnerable.

Supply teachers, other temporary or peripatetic teachers, visiting council officers and healthcare practitioners

Educational settings can continue to engage supply teachers and other supply staff during this period. Specialists, therapists, clinicians and other support staff for pupils with SEND must continue to provide interventions. A separate risk assessment has been developed for visiting officers and healthcare practitioners. The school and visitor risk assessments must be shared.

The Head teacher has the final say on who is permitted to visit the school.

School Uniforms

It is up to the governing body to decide whether the relaxed policy for school uniform is to continue, but are encouraged to return to their usual uniform policy in the autumn term.

It goes on to say 'Uniforms do not need to be cleaned any more often than usual, nor do they need to be cleaned using methods which are different from normal.'

Local Lockdown Procedures

The DfE has stated that every school will also need a plan for the possibility of a local lockdown.

A draft [Outbreak Management plan](#) has been produced and following consultation will be adopted by Cumbria's Local Resilience Forum and will form part of the overall Cumbria Emergency Plan framework. This includes lockdown actions for educational settings in the event of a localised incident or outbreak.
